The Role of Attributions and Perceived Control in Recovery from Rape. Survivor's Needs and Stories After Organizational Disasters: How Organizations Can Facilitate the Coping Process. This book uses the letters and writings of Galla Placidia's contemporaries to reconstruct, in more depth and detail than has yet been attempted, the remarkable story of her life and the decline and fall of the Roman Empire. Kenneth Atkinson is a professor of history at the University of Northern Iowa in Cedar Falls. Experiencing traumatic events may often lead individuals to post-traumatic stress disorder (PTSD). Traditional psychotherapies (e.g., CBT) and their variations have proven efficacious in their ability to target PTSD symptoms. Post-traumatic stress disorder (PTSD) is a severe psychiatric illness which may develop in individuals exposed to trauma [1], including exposure to military combat, interpersonal violence, and childhood maltreatment.
