Sir Gawain and the Green Knight is one of the finest surviving examples of Middle English poetry, but little is known about the author - except hints that he came from the north of England. "The Knight's Tale" is also concerned with courtly love, which demanded the loyalty of the knight to just one person: his lady-love. Courtly love was actually a "system" of love, just as chivalry was a system of knightly behavior. That means there were rules...for love. The rules of courtly love were even written down in a treatise by a 12th-century French courtier, Andreas Capellanus, in a work called *De Amore*, although literary types disagree on whether or not this work is meant to be serious or just a way to make fun of the courtly love tradition. In any case, we have these two codes of behavior: chivalry and courtly love; and in "The Knight's Tale" we get to see what happens when the two codes clash. Palamon and Arcite are sworn brothers.
