

# Studies in Social Work, Issue 18, | Delhi, University, School of Social Work., 1956 | 1956

Social studies can also be referred to as social sciences. It's a field which deals with human behavior, relationships, resources, and institutions. Specific topics within social studies that are studied in school coursework include geography, anthropology, economics, history, sociology, political science, and civics. Photo by NeONBRAND on Unsplash. Aim And Purpose Of Social Studies. The main goal of teaching social studies is to teach students to become good citizens. Students must study how society works, and how people work in a society in order for it all to work once they enter society after graduation. 8 Reasons: Why Is Social Studies Important For Students? Students learn skills through social studies that help them succeed in further education as well as life. Social Studies encompass a range of disciplines that examine and explain human functioning on a variety of interlocking levels like anthropology, economics, history just to name a few. Sociostudies aims at advancing social sciences by collecting and presenting theoretical and applied research, ideas and approaches driving from scholars from economics, political science, psychology, sociology and anthropology, global studies. All social studies teachers must inevitably deal with controversial issues, ranging from basic ideas of fairness and equality in a democracy, to immigration, to the distribution of world resources. Controversial issues require students to conduct thorough research, master concepts on both sides of an issue, and develop a perspective of their own. The challenge for all teachers is finding the fine line between engaging students' interest and maintaining a sense of objectivity that lets students master the material and develop their own perspectives. Overview How can teachers help students understand the ideas and values behind historical controversies, competing ideologies, and changing laws? Highlighting extensive coverage among a variety of applicable perspectives and themes, such as governing principles of social work practice, ethical analysis of social work cases, and individual and social responsibility in social services, this book is ideally designed for professionals and researchers working in the field of social work and social services as well as academics and upper-level students seeking cutting-edge. research on ethics in the practice of social work. Topics Covered. The purpose of this study is to present the ethical dilemmas that social workers in various institutions in Turkey encounter as well as the factors Sample PDF. Ethical Dilemmas That Turkish Social Workers Encounter and Factors That Influence Their Decisions in Case of Ethical Dilemmas. \$37.50. Chapter 9.
