[Ph.D. dissertation, Indian Institute of Technology, Kanpur]. 1991. Verb movement and the subject position in Yiddish. M. Diesing. Philosophy. This book investigates the phenomenon of verb-second in a language outside the Germanic family, a relatively unknown and unanalyzed Indo-Aryan language called Kashmiri. Kashmiri is unique in that it exhibits both the German/Dutch type of verb-second as well as the Yiddish/Icelandic type. The comparative theoretical treatment adopted in this book serves three functions. First, it provides an opportunity to examine and ascertain the limitations of the current models of verb-second grammar in light of new, typologically different data. Second, it presents a parametric account of verb-second and e Publisher: Springer Edition: 1st ed. Softcover of orig. ed. Date: 2010 Pages: 308.
