

Research and Knowledge Transfer Annual Monitoring Report 2007/8

- **General overview**

The SSES staff have been active in research and knowledge transfer activities. Most contributions to research have come in the form of disseminating information at conferences. There have been two books completed and several refereed research articles. Staff need to continue to strive to complete further research outputs. In the now Institute of Sport and Exercise Science, there will continue to be a focus on supporting staff in completing their research.

For the 2007/8 year, the School went through a validation process. The extensive process may have contributed to the reduction some individual activity.

The Staff developed several action plans to meet the strategic direction of SSES research. The agreed actions are recorded in the Research Advisory Group's minutes. Many of the actions have or are in the process of being implemented.

A process of revisiting the Ethics procedures for the School has developed a rigorous procedure in obtaining ethical approval for all research and will extend to knowledge transfer activities from next year.

Some initiatives resurrected included a UW/University of Birmingham Research Day, PhD student get together and PhD supervisors get together to discuss student and supervisor processes.

- **Record of staff doing active research and knowledge transfer**

Most staff are actively involved in Research and/or Knowledge Transfer activities. For a complete list, please see Appendix 1.

31 staff are actively involved in research, 19 staff are activity involved in Knowledge Transfer Outputs.

- **Record of publications**

The complete list of publications can be seen in appendix 2.

32 publications consisting of 2 books, 7 book chapters, 10 refereed articles, 4 journal articles in press, and one peer refereed conference proceedings article, were produced within the School.

Our visiting professor had the most research outputs. One of the issues I believe that are fewer publications is that there continues to be a diverse range of roles and responsibilities that staff are required to undertake in relation to the work of the SSES and the University. These can make it challenging for staff to secure clear periods for research and scholarly activity. I believe we should look at this issue in an attempt to free staff to have more time for research like activities. In the new vision for the Institute, the issue will be addressed.

- **Details of knowledge transfer output and dissemination**

For a detailed list of Knowledge Transfer Activities, see appendix 3.

Staff are active in consultancy activities. A large number of staff contribute to both the Brazil Football School and the SSES Summer School. The Learning through Sport initiative has several staff members involved, while the Sport Performance and Coaching Centre is quite active in its involvement with various consultations with athletes, referees and coaches. Quite a number of staff are involved with school consultancy and a couple are involved with physical activity initiatives. The Worcester Wolves Basketball club also draws on a number of staff.

There has been quite a few staff working with consultancy in relation to the MARRC centre.

- **Details of conference presentations**

The complete list of conference presentations can be seen in appendix 4.

9 invited speaker/keynote/session chair roles were performed by 4 staff from the School. 26 further presentations were delivered at national/international conferences with 15 staff as authors.

- **Details of income received for research and consultancy projects**

£54,000 over 3 years (March 2008), University of Worcester fully funded PhD studentship in the School of Sport & Exercise Science: Can pedometer strategies improve the effectiveness of the MEND Programme for obese children and their parents in the Worcestershire Primary Care Trust? Dr DM Peters and Dr M Edwards (University of Birmingham).

The Sport Performance and Coaching Centre has generated **£6000** for PALS mentoring, and **£8,500** for sport psychology consultancy and potential research opportunities.

In addition, **£4000** has been gained for MARRC work.

The TOP Link Festival gained a profit of **£ 2,290**

£400k project application to Access to Nature from Dr Cheryl Jones (ASGA) & Dr Derek M Peters regarding a nature, health and education programme with health walks around, between and beyond both UW campuses. Successful at stage 1 with stage 2 application anticipated in early 2009.

- **Unsuccessful:**

£2.45 million- July (2008) - Bid was submitted to the Department of Health 'Healthy Communities Challenge Fund' (HCCF) by Haydn Jarrett in Collaboration with Worcestershire Primary Care Trust and Worcestershire County Council. The bid, centred on the forthcoming Wellness Centre was for £2.45 million, using the Wellness Centre building and revenue from the PCT as match funding and aimed at supporting and developing current and future projects in the area of Physical Activity, exercise, health and well-being,

£193,032 – May 2008 – *The effect of participation in Pilates on biomechanical variables associated with falls.* Application to the Help the Aged project grants scheme – Dr DM Peters & MARRC collaboration with Rachel Wright. Principle application to investigate the acute and chronic benefits of Pilates participation on biomechanical variables associated with falls. Application to create a full-time post doctoral position for Rachel Wright with MARRC.

£54,000, March 2008 – *A multi-national, mixed method investigation of student and qualified physical education teachers/ implicit attitudes to fatness, and perceptions of and behaviours towards obese children in physical education settings.* University of Worcester fully funded PhD studentship application form Dr DM Peters and Professor K Hardman.

- **Postgraduate research programme activity**

Completed PhD students:

Josh Coopridger: PhD, May 2008 – *A comparative study of the importance of winning within University sports in England and the United States.* DoS: Malcolm Armstrong. Team: Mick Donovan & Prof Ken Hardman.

Full-time SSES postgraduate research students:

Richard Medcalf: MPhil/PhD, 3rd year - started in July 2006 - *The experiences of the child with Social Emotional and Behavioural Difficulties in Physical Education.* DoS: Dr Joe Marshall. Team: Prof K Hardman (Advisers Dr John Visser (UoB)).

Adam Stevenson: MPhil/PhD, started May 2008 –Psychology/Physiology, DoS, Dr Paul Castle, Team: Andrew Renfree.

Rachel Wright: PhD, 4th Year - *The impact of physical activity and exercise on balance, gait and stability in older persons: implications for the identification of, susceptibility to, prevention of and rehabilitation following falls.* DoS: Dr Derek Peters. Team: Prof Paul Robinson & Dr Mark Hollands (University of Birmingham).

Part-time postgraduate research students:

Adam Benkwitz: MPhil/PhD, 1st year, not yet to RDB1 – Case studies of football hooliganism – Aston Villa and Birmingham City. DoS: Dr John Kelly. Team: Dr Lynn Kidman, Prof Jim Riordan.

John Behan: MPhil/PhD, 3rd year, not yet to RDB1 – *An investigation into implicit and explicit measures of cross-modal interactions of odours and visual stimuli in emotional processing and memory.* DoS: Dr Paul Castle.

Scott Buckler: PhD, 3rd year - *Psychological and physiological investigations of flow state in Wing Chun.* DoS: Dr Paul Castle. Team: Dr Derek Peters & Prof Paul Robinson.

Colin Chiverton: MPhil/PhD, 4th year - *Critical analysis of current training theory and practice within professional football in England.* DoS: Malcolm Armstrong. Team: Dr Derek Peters & Prof David Jones (University of Birmingham).

Katie Fownes: MPhil/PhD, started January 2008. *Menstrual Cycles and Effect on Exercise.* DoS: Louise Martin and Bruce Craig.

Andrew Harper: MPhil, 3rd year, - *Physiological and skill demands in elite youth basketball: a tri-nation comparative study.* DoS: Dr Derek Peters. Team: Mick Donovan, Dr Clare Rhoden & Dr Nic James (UWIC).

Susie Hart: MPhil/PhD, 4th year – *Sport for all policies and programmes in Canada, England and the Federal Republic of Germany, 1978-2004: a comparative analysis.* DoS: Mick Donovan. Team: Prof Ken Hardman.

Lucy Holmes: MPhil/PhD, 5th year - *Position specific physiological profiles of elite female hockey players.* DoS: Dr Derek Peters. Team: Prof Paul Robinson.

Gareth Jones: MPhil/PhD, 5th year, not yet to RDB1 - *Collective Efficacy and it's antecedents in relation to social loafing in sports teams, .* DoS: Dr Derek Peters. Team: Prof Paul Robinson & Dr Rune Hoigaard (University of Agder).

Ruan Jones: MPhil/PhD, started in June 2008 – *Teaching Games for Understanding, a existentialist perspective.* DoS: Dr Lynn Kidman.

Carla Solvason: PhD, 6th year - *Inclusion or excellence? The impact of competing cultures on students' perceptions of achievement in a UK specialist Sports College.* DoS: Prof Geoffrey Elliot. Team: Malcolm Armstrong & Dr Derek Peters.

Julia West: MPhil/PhD, 4th year - *Identifying and clarifying the concept of state motivation in sports.* DoS: Dr Paul Castle. Team: Prof Paul Robinson & Dr Clare Rhoden.

Supervision of postgraduate research students in other UW departments:

Jane McGee: PhD PT, 2nd year, not yet to RDB1 – *Mistaken identity? Using narratives to analyse PE teachers' perception of the Muslim female identity and implications for inclusion.* DoS: Prof D Upton. Team: Prof Ken Hardman & Dr Joe Marshall.

Erica Thomas - *Habit and the Intention-behaviour relationship within the Theory of Planned Behaviour: The case of physical activity.* Team: Prof D Upton (IHSCP), Dr Victoria Mason (IHSCP) & Dr DM Peters.

Helen Watts: PhD FT, 2nd year - *Membership Retention in the Health and Fitness Industry: A Predictive Model*. Team: Dr J Francis-Smythe, Prof D Upton & Dr Derek M Peters.

Supervision of postgraduate research students at other HEI's:

Dr Derek Peters and Chris Hughes with Dr M Edwards and Prof D Carroll in the School of Sport & Exercise Sciences, University of Birmingham. Jason Martin (full-time) - *The effects of aging on movement performance*.

Number of staff supervising:

Thirteen staff from the School are involved in the supervising research degrees:

- Malcolm Armstrong (2)
- Dr Paul Castle (4)
- Mick Donovan (2)
- Prof Ken Hardman (3)
- Chris Hughes (1)
- Dr John Kelly (1)
- Dr Lynn Kidman (2)
- Louise Martin (1)
- Dr Derek Peters (10)
- Andrew Renfree (1)
- Dr Clare Rhoden (2)
- Prof Jim Riordan (2)

Six staff from other UK and International HEI are also involved in the supervisions of UW students.

- Dr Mark Hollands, University of Birmingham (1)
- Prof David Jones, University of Birmingham (1)
- Dr Nic James, University of Swansea (1)
- Dr Rune Hoigaard, University of Agder (1)
- Prof Paul Robinson, University of Birmingham (5)
- Dr John Visser, University of Birmingham (1)

Staff undertaking part-time postgraduate research degrees at University of Worcester:

Susie Hart, MPhil/PhD (Sports Management)

Lucy Holmes, MPhil (Performance Analysis)

Gareth Jones MPhil/PhD (Sport Psychology)

Ruan Jones MPhil/PhD (Teaching Games for Understanding), SEDA

Julia West, MPhil/PhD (Sports Psychology)

Staff undertaking part-time postgraduate research degrees at other institutions:

Liane Azevedo: PhD, 6th year *Biomechanics of Achilles Tendinopathy* at the University of Cape Town.

Mark Pierkatz: PhD, 5th year - *Political risk management, tourism and sport* at Cranfield University.

Activity related to professional bodies, learned societies

See Appendix 5 for Membership of subject associations, learned societies and relevant professional bodies.

In addition:

Prof Ken Hardman sits on the editorial boards of *Acta Universitatis Carolinae, "Gymnica"* (Charles University, Prague); *Élide*, *Revista Anaya de Didáctica de la Educación Física*, Spain ; *European Physical Education Review*; *International Scientific Journal of Kinesiology and Sport*; *International Journal of Physical Education*; *Human Movement* (Academy of Physical Education, Wroclaw and Polish Scientific Society of Physical Culture); *Sportwissenschaft*, International Advisor, Germany; *Sport Sciences International Series*. Verlag Peter Lang GmbH., Germany and *The Hispanomexican Phorus International PE and Sport, Digital Journal*.

Dr Lynn Kidman is a reviewer for *International Sports Coaching Science Journal*, *Pedagogy and Physical Education journal*, Routledge Publishers, *Teaching Games for Understanding Conference Proceedings and Abstracts*.

Dr Lynn Kidman is on the *International Teaching Games for Understanding Task Force*.

Christina Boxer was a reviewer for *Journal of Sports Sciences*.

Ruan Jones was a reviewer for Human Movement.

Louise Martin was a reviewer for the *International Journal of Sports Physiology and Performance* the *International Journal of Sports Medicine*.

Dr Derek Peters continues to act as reviewer for the following journals: *Child: Care, Health & Development*; *Health Education Research*; *Human Movement*; *International Journal of Performance Analysis in Sport*; *International Journal of Sports Science & Coaching*; *Journal of Hospitality, Leisure, Sport & Tourism Education*; *Journal of Physical Activity & Health*; *Journal of Science & Medicine in Sport*; *Journal of Sports Sciences* and is on the editorial board of the *International Journal of Performance Analysis in Sport* and the scientific committee for the *World Congress of Performance analysis of Sport 2008*.

Dr Peters also reviewed grant proposals for the *UK Economic and Social Research Council*.

Dr Clare Rhoden was a reviewer for *Journal of Applied Sport Psychology*.

Additional information:

Liane Azevedo won a student travel award for the American College of Sports Medicine Biomechanics Interest Group and the Nike award for athletic football research.

Dr Peters was invited to become a Visiting Associate Professor in the Faculty of Health & Sport, at the University of Agder, Norway from August 2008 for an initial term of three years.

Dr Peters also achieved British Association of Sport & Exercise Sciences accreditation as a Sport & Exercise Scientist (Interdisciplinary – Research).

Dr Castle BPS Chartered Sport and Exercise Psychologist

• **Discussion of how research and scholarly activity and knowledge transfer feeds into teaching.**

All research undertaken in the School is applied in nature and feeds directly into teaching, whether the teaching is research-led, research-oriented, research-based or research-informed (Jenkins, 2005). Many undergraduate modules involve teaching that is research-led through the use of curriculum content drawn from research undertaken by module staff. Teaching is strongly research-oriented (promoting the understanding of the research process) and research-based (using inquiry-based activities, supported by staff experiences) in all of the research methods modules taught across all courses in the School and to an increasing degree in many other UMS modules especially at levels 5, 6 and 7. Teaching is also directly research-informed, with a number of staff engaged in externally and internally funded projects that investigate teaching and learning processes themselves within the discipline.

• **Collaborative research and related activities, including international links, including knowledge transfer**

A strong external collaborative research ethos is evident in the emerging collaboration with other HEI in supervision of postgraduate research students, particularly the University of Birmingham and in the growing number of students supervised at other HEI by School staff. There is also a strong theme of cross-departmental collaboration within the University itself with evidence presented via publication authorship and both successful and un-successful research grant applications.

SSES has Research Interest Groups (RIG) who meet regularly to discuss possible research ideas and collaboration. Several major initiatives have been drawn from that, e.g. Mountain Biking research, Biomechanics and MARRC research and Obesity and Physical Activity research. RIGs are used for mutual research interests including further development of staff PhDs.

The School's engagement with international research collaborations continues to develop.

Appendix 1: Staff Actively Involved in Research, Knowledge Transfer Activities

Research

Ms Liane Azevedo (Achilles Tendinopathy in Runners and Mountain Biking)
Mrs Lerverne Barber (Initial Teacher Education and Primary PE)
Mr Joe Bevins (Physical Activity and Obesity)
Mr Will Bowen-Jones (Teaching and Learning)
Dr Paul Castle (Sport Psychology and Teaching and Learning)
Mrs Helen Corke (Physical Education Teachers' Employment Opportunities)
Mr Christian Edwards (Motivation and Physical Fitness)
Mr Glyn Harding (Coaching Pedagogy)
Professor Ken Hardman (Physical Education Pedagogy and UNESCO)
Ms Susie Hart (Sport Management)
Ms Lucy Holmes (Sport Performance Analysis)
Mr Chris Hughes (Biomechanics)
Ms Vanessa Incedon (Physical Education Pedagogy)
Mr Haydn Jarrett (Physical Activity, Exercise and Health)
Mr Gareth Jones (Sport Performance Analysis, Sport Psychology)
Mr Ruan Jones (Pedagogy of Teaching Games for Understanding)
Dr John Kelly (Sport and National Identity)
Dr Lynn Kidman (Athlete-centred coaching, Coach Development)
Ms Annie Lambeth (Mountain Biking Physiology and Nutrition)
Mrs Louise Martin (Mountain Biking, Physiology, Learning and Teaching)
Mr Richard Medcalf (Physical Education and Special Needs)
Ms Alice Mooney (Sport Massage)
Mr David Mycock (Coaching – Skill Development)
Dr Derek Peters (Physical Activity & Health, Childhood Obesity, Physical Education, Sport Performance Analysis, Learning & Teaching in HE, Sport Physiology, Teaching Games for Understanding;)
Mr Mark Pierkatz (Tourism, Sport and Adventure)
Mr Andrew Renfree (Endurance Physiology and Nutrition)
Dr Clare Rhoden (Stress Management and Psychological Skills Training)
Professor Jim Riordan (Sport History and Sociology)
Ms Julia West (Sport Motivation and Moods)
Ms Rachel Wright (Physical Activity and Health)

Knowledge Transfer

Ms Liane Azevedo (Brazil Football, MARCC and Alpargatas Shoe Company, Brazil –UK football course)
Mrs Lerverne Barber (Sports Youth Trust)
Mr Will Bowen-Jones (Student Retention, Learning and teaching)
Dr Paul Castle (West Bromwich Albion Academy; Worcester County Cricket Academy; British Dragon Boat Squad; Worcester County Archery Squad; Team Dynamics - British Touring Car Championship Team; TASS support Sport Psychology consulting)
Mr Mick Donovan (Worcester Wolves and Learning through Sport)
Ms Christina Boxer (Sport Coach UK and Schools Sport Awards)
Mr Christian Edwards (Testing Droitwich High School and British Dragon Boating)
Mr Glyn Harding (Coaching and Brazil Football)
Professor Ken Hardman (UNESCO)
Ms Susie Hart (Community sport, Worcester Wolves, Coaching Courses)
Ms Lucy Holmes (summer school, Brazil Football, Testing)
Mr Chris Hughes (Brazil Football and MARCC)
Ms Vanessa Incedon (Physical Education and Schools)
Mr Haydn Jarrett (Worcester Walking Scheme)
Mr Gareth Jones (Performance Analysis and Summer School)
Dr Lynn Kidman (Sports Coaching)
Mr David Mycock (Fitness and Skill Assessment)
Dr Derek Peters (Physical Activity, Childhood Obesity, School Physical Education)
Dr Clare Rhoden (Stress Management and Psychological Skills Training)
Mr Craig Williams (Sport Coaching Courses)
Ms Rachel Wright (MARCC)

Appendix 2: Publications

Books:

Castle, P.C. (2008). *Psychology of Motorsport Success: How to improve your performance with mental skills training*. Yeovil: Haynes Publishing.

Van Berlo, K. (2008). *Case studies to exemplify outstanding practice and to support the guidance for Qualified Teacher Status and Initial Teacher Training Requirements*. Developing Trainees' Professional Attributes in TDA.

Book Chapters:

Bowen-Jones W. & Bill, K. (In press) *Enhancing enterprise, entrepreneurship and employability through PDP*, Newbury: Threshold Press.

Hardman, K. (2008) Physical education in Europe. In Klein, G., and **Hardman, K.** (Eds.), *Physical Education and Sport Education in European Union*. pp.3-14, Paris Editions Revue.

Hardman, K. (2008) Physical Education and Education through Sport in England. In Klein, G., and **Hardman, K.** (Eds.), *Physical Education and Sport Education in European Union*. pp.105-121, Paris Editions Revue.

Hardman, K., Klein, G., Patriksson, A., Rychtecky, A. & Carreiro da Cost, F. (2007) The AEHESIS Project: a European PETE Curriculum. In Patriksson, G. *Aktuel Beteende- OCH Samhällsvetenskaplig Idrottsforskning*. SVEBI:S pp.115-135.

Hardman, K. (2007) Comparative Physical Education and Sport. In Dumon, D (Ed.), *Directory of Sport Science*, (4th Ed). ISCPES, Berlin.

Incleton, V., & Bowen-Jones, W. (2007) Physical Education and Sport Education in Wales. In Klein, G. & **Hardman, K.** (Eds) *The Physical Education and Sport Education in the European Union*, pp. 437- 453 Paris: Editions Revue.

Kidman, L. & Lombardo, B. (In press) Humanistic coaching, In Griffin and Butler, *Teaching Games for Understanding* (2nd Ed), Champaign, IL: Human Kinetics.

Refereed Journals:

Benfield, L., Fox, K.R., **Peters, D.M.**, Blake, H., Rogers, I., Grant, C. & Ness, A. (2008). Magnetic resonance imaging of abdominal adiposity in a large cohort of British children. *International Journal of Obesity*, **32**, 91-99.

Caldwell, B., & Peters, D.M. (In press). Seasonal variations in the physiological fitness of semi-professional footballers. *Journal of Strength & Conditioning Research*...

Castle, P.C., & Incledon, V. & Waring, M. (2008). Are we conveying the message appropriately? adapting to student perceptions of 'effective' feedback. *JoHLSSTE*, **7** (1), 89-98.

Edwards, C., Tod, D. & Mcguigan, M. (In press). Self-talk influences vertical jump performance and kinematics in male rugby union players. *Journal of Sports Sciences*.

Hardman, K. (2008) The situation of Physical Education in schools: a European perspective. *Human Movement*, **9** (1), 1-14.

Hardman, K. (2008) Physical Education in Schools: a Global Perspective. *International Journal of Fundamental and Applied Kinesiology*, **40**(1), 5-28.

Høigaard, R., **Jones, G.W. & Peters D.M.** (2008). Preferred coach leadership behaviour in elite football in relation to success and failure. *International Journal of Sports Science & Coaching*, **3** (2), 241-250.

Incleton, V., Castle, P., Waring M., & Van Berlo, K. (2007). A marking template to improve feedback for sport students, *LINK Special Edition HLSTN*.

Jones, R.J.A., Polman, R.C.J. & Peters, D.M. (In press). Physical self-perceptions of adolescents in years 8, 9 and 10 in independent schools, state comprehensive schools and specialist sport colleges in England. *Physical Education & Sport Pedagogy*.

Kelly, J. (In press) Flowers of Scotland? Rugby union, national identities and class distinction. *Stadion: European Journal of the History of Sport and Physical Education*.

Martin, L., Bill, K., & West, J. (2008). Incorporating problem-based learning strategies to develop learner autonomy and employability skills in sports science undergraduates. *JoHLSSTE*, **7**, 18 – 30.

Peters, D.M., Jones, G.W. & Peters, J.D. (2008). Preferred 'learning styles' in students studying sports related programmes in Higher Education in the United Kingdom. *Studies in Higher Education*, **33** (2), 155-166.

Appendix 5: Membership of subject associations, learned societies and relevant professional bodies

Surname	First Name	Membership of Subject Association	Member of Learned Society	Member of a relevant professional body
Azevedo	Liane			American College of Sports Medicine (ACSM)
Azevedo	Liane			International Society of Biomechanics (ISB)
Azevedo	Liane			
Barber	Lerverne	Association for Physical Education		British Psychological Society Chartered Sport and Exercise Psychologist
Castle	Paul			
Castle	Paul		Graduate Member of the British Psychological Society	
Hardman	Ken	UNESCO Association for Physical Education		
Incleman	Vanessa			
Kidman	Lynn	TGfU Task Force		
Kidman	Lynn			ICCE
Kidman	Lynn			AISEEP
Lambeth	Annie			BASES
Martin	Louise			BASES
Medcalf	Richard	Association for Physical Education		
Medcalf	Richard		British Educational Research Association (BERA)	
Medcalf	Richard			National Association for Special Educational Needs Social, Emotional and Behavioural Difficulties Association
Medcalf	Richard			BASES
Mooney	Alice			Sport Massage Association UK (SMA)
Mooney	Alice			PGA
Mycock	David			BASES
Mycock	David	The Professional Footballers' Association		
Mycock	David		Higher Education Academy Teaching Fellow	
Mycock	David	The English Football Association Coaches Association,		
Peters	Derek		Association for the Study of Obesity (ASO)	
Peters	Derek			BASES
Peters	Derek		Fellow of the Higher Education Academy	
Peters	Derek		National Obesity Forum (NOF):	
Rhoden	Clare			BASES
Van Berlo	Karen	Association for Physical Education		
Van Berlo	Karen			European Higher Education Officers Assoc

In the latest Research Assessment Exercise in 2008, the School of Sport and Health Sciences at the St Luke's™ campus was rated sixth in the UK for the standing of its work. For over two decades Exeter has been at the cutting edge of tourism studies. The University is home to one of the largest and most visible doctoral training centres in the world, and its academics have published several subject-defining studies in the field. Dr Steven Freudmann – Chair, Institute for Travel and Tourism. Dr Alan Fyall – Head of Enterprise, Bournemouth University. 2008-09 in Focus: Research and Knowledge Exchange Activities. Since September 2008, the following projects have been developed by members of the Centre in conjunction with their external partners. The result – a combination of sport exercises and gaming – is also called – exergame. The more. In addition, the study tested the research design and to identify possible effect sizes. The method chosen was a prospective, randomised, controlled, and unblinded design. We used program theory to sound out knowledge on GP-centered physical activity counseling. The – conceptual theory – (evidence for training effects in old age) and the – implementation theory – (unique position of the GP) were reviewed narratively. ANNUAL REPORT 2008-09. Contents. Introduction to the Research Institute 3. The transfer of the Division of Tourism, Leisure and Sport Management from the Business School now enables greater links to be made with research active staff in sport within the Division who have not previously contributed directly to the activities of the Institute. A number of new research active appointments joined both of the sport-related departments between June and September 2009. These comprise three in Sport and Exercise Science, three in physical education, one in physical activity and health and four in tourism and leisure, with five of the 11 bursaries being match-funded by external funding bodies. Centre for Science and Technology Studies Leiden University December 2008. 1. For national science policy and university research management it is of major importance that methods to assess scholarly performance in the humanities are available. Therefore it is essential to design and create, preferably on a EU scale, a humanities research database in which clearly defined and correctly classified bibliographic sources are processed; national or other geographical biases are removed; processed documents have institutional affiliations of publishing authors; and in which data elements are standardized. They are also invited frequently by universities and research organizations to give presentations of their work. We here mention important invitations in the last three years, 2004-2007. Combine your love of sport and science with a career in sports science. Understanding human physiology means you can help athletes achieve better results. If you are considering a degree in sport and exercise science, or simply interested in the research, this page provides advice, tips and spotlights on the field of sport and exercise science. Download the animation here. Read our Sport and Exercise Science report here. How can we improve general health and wellbeing throughout the natural lifespan through exercise? How can we select, prepare and protect individuals to work and compete in stressful environments? How can we best support athletes to maximise their performance and recovery?
