For eons the moon has intrigued humanity. From its creation through the current issues of space exploration, the moon has been both a light in the night and a protective shield of earth placed perfectly by God, regulating our seasons and keeping our atmosphere purified. Billions of dollars have been spent to reach its surface and discover its secrets; open these pages and discover those secrets for yourself. Now completely revised and expanded, Our Created Moon is filled with the most current full-color images, facts and figures, and innovative teaching resources: Developed as an educational resource for our children, Our Created Moon.
